

ABSTRACT OF THE DISCLOSURE

5 A padded tub liner for protecting a user from an impact
caused by slipping in a bathtub. The padded tub liner includes a
bottom portion designed for resting upon a bottom surface of the
bathtub; a first side portion operationally coupled to the bottom
portion, and designed for abutting a side surface of the bathtub; and
10 a second side portion operationally coupled to the bottom portion
opposite the first side portion, and designed for abutting a second
side surface of the bathtub.
